CURRENT ROLE

Member of Technical Staff
Seldon

2025 – present
SAN FRANCISCO 

- Building agentic systems, infrastructure, evaluations.
- Raised \$7.5M to accelerate software testing ·  Seldon
- Bridging the gap between research and engineering.

RESEARCH

M.S. Computer Science
University of Edinburgh

2024 – 2025
EDINBURGH 

- Industry-sponsored research on compilers for data science.
- Open-sourced a query engine with code generation · 
- Preprints on  programming languages and  database systems.

PREVIOUS ROLES

Research Engineer
Gyana & Tably

2019 – 2023
LONDON 

- Applied R&D for large-scale distributed data processing.
- Raised \$3.9M to democratize data science ·  Gyana
- Developed high-performance analytics libraries · 

Quantitative Developer
Macquarie Group

2015 – 2019
LONDON 

- Responsible for live strategies and the backtesting engine.
- Desk role in Quantitative Investment Strategies ·  QIS
- Hired after off-cycle internship in Options Market Making.

EDUCATION

Visiting Fellowship
Machine Intelligence Research Institute

2013
BERKELEY 

- Conducted formal research on normative uncertainty ·  MIRI

Summer School in Logic and Formal Epistemology
Carnegie Mellon University

2013
PITTSBURGH 

- Fully funded, seminars on statistical machine learning ·  CMU

B.S. Computer Science
Australian National University

2011 – 2015
CANBERRA 

- Thesis on theoretical computer science and decision theory.
- National Merit Scholarship (top 0.35%), math prize ·  ANU
- Taught classes on logic, formal methods, information theory.

CODING

Python  · Rust  · Scala  · C++ 

CITIZENSHIP

 Australian  British  Italian ·  US E-3 visa holder ·  based in San Francisco.
